SUMMARY

Full Stack developer from University of Texas at Austin Full Stack Software Development Bootcamp. Recognized as an innovative problem solver passionate about developing apps, with a focus on mobile-first design and responsive. Proven ability to work collaboratively alongside peers to achieve company objectives. High performer looking to leverage complex problem solving skills and the ability to work effectively with diverse teams to drive organizational growth.

This is a group project from my UT bootcamp. <https://afam-26.github.io/Cocktail-on-the-run/>. This website assist individuals who are interested in knowing how their favorite cocktails are made. In addition, they can search for their favorite cocktails location near them and they will be presented with list of locations.

TECHNICAL SKILLS

Node.js, MySQL, HTML, CSS, Bootstrap, jQuery, JavaScript, GIT, Github, Media Queries, APIs, JSON, RESTful API, Express.js, Sequelize Heroku, MongoDB and Command Line.

PROJECTS

Barber Booker

<https://babar-shop.herokuapp.com/>

These days, waiting in line at the barbershop is not really an option. With Barber Booker, you can now book your barber for a same-dat fade without leaving your home. This application uses Node.js, Express server, backed by MySQL database and deployed using Heroku.

Note-Taker

<https://afam-26.github.io/Note-Taker/> | <https://note-ta.herokuapp.com/>

This application use's an express backend, it saves and retrieve note data from a JSON file. It can write, save, and delete notes. It will help users who need to keep track a lot of information, and being able to take persistent notes allows users to have written information available when needed.

Employee Summary

<https://afam-26.github.io/Employee-Summary/>

This is command-line application that takes in information about employees and generate an HTML webpage that displays summaries for each person. These employees will be grouped in teams, each team will consist of one Manager, desired Engineers and intern's.

EXPERIENCE

Whole Foods Market – Austin, TX
Senior Service Desk Technician

2017 – 2020

At Whole Foods Market, I was one of the team members in charge of coordinating procurement of new computer, provisioning it for the end user and re-image. With Client satisfaction been one of our core values. We were able to create a transparent understanding between our leadership, IT teams and third party agents. Fully comfortable, confident and capable of expressing technical ideas and information in a user-friendly language.

AT&T Inc - Austin, TX
Tech Support

2016 – 2017

While completing my associate degree at ACC, I worked at AT&T as a Tech Support Analyst. My team was responsible for making sure their network was always functional for their end users. With the help of several knowledge base articles (KBA) for troubleshooting steps we created, our workload reduced by %30, and we maintained our SLA.

Chinek Tires Enterprise – Delta State, Nigeria
Sales manager

2011- 2014

I started my working career as a sales manager at Chinek Tyre Enterprise. There, is where I gained my leadership skills, met sales goals and lead a small team of sales associates. Boosted sales revenue (%40), by creating new distribution channels and opportunities, while ensuring the continuation and enhancements of services.
